Customizable features

Your vehicle includes a variety of electronic features that can be personalized to suit your preferences. Programming of these preferences can be performed by your Lexus dealer.

It is also possible to customize certain vehicle features yourself using the multi-information switches and the navigation system screen.

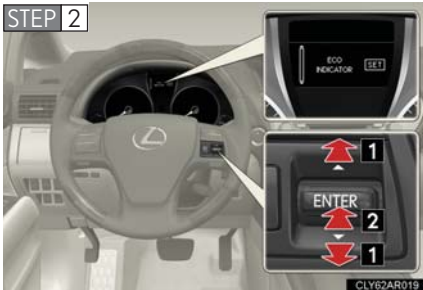
Some function settings are changed simultaneously with other functions being customized. Contact your Lexus dealer for further details.

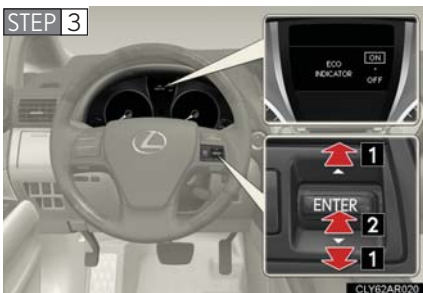
Customizing vehicle features

It is possible to customize certain vehicle features using the multi-information switches. *

*: For instructions on customizing vehicle features using the navigation system screen, refer to the “Navigation System Owner's Manual”.

When customizing vehicle features, ensure that the vehicle is parked in a safe place with the shift lever in P and the parking brake set.

Press and hold the menu switch of the multi-information switches to display customize mode.


1. Press the "ENTER" switch upwards or downwards to select the item to be customized.
2. Press the "ENTER" switch to confirm.


1. Press the "ENTER" switch upwards or downwards to select the desired setting for the item being customized.
2. Press the "ENTER" switch to confirm.

When customization is completed, press the menu switch to clear the customization screen.

Customizable Features

■In the following situations, customize mode will automatically be turned off.

- A warning message appears after the customize mode screen is displayed.
- The "POWER" switch is turned off.
- The vehicle begins to move while the customize mode screen is displayed.

CAUTION

■Cautions during customization

As the hybrid system needs to be operating during customization, ensure that the vehicle is parked in a place with adequate ventilation. In a closed area such as a garage, exhaust gases including harmful carbon monoxide (CO) may collect and enter the vehicle. This may lead to death or a serious health hazard.

NOTICE

■During customization

To prevent 12-volt battery discharge, ensure that the hybrid system is operating while customizing features.
